From Principal's desk....

**Integration of Computational Thinking (CT) and Artificial Intelligence (AI) in
Grade 3 to 9**

Dear Parents,

Greetings from the School!

As per the latest guidelines introduced by CBSE, in alignment with the National Education Policy (NEP) 2020 and the National Curriculum Framework (NCF) 2023, schools are encouraged to equip students with future-ready skills such as problem-solving, logical reasoning, digital literacy, innovation, and responsible use of technology. In line with this vision, CBSE has introduced Computational Thinking (CT) and Artificial Intelligence (AI) to help students develop analytical thinking, creativity, and an understanding of emerging technologies from an early age.

We are pleased to inform you that our school will be integrating these components into the academic timetable.

Please note:

- One Mathematics period will be utilized for Computational Thinking (CT) for Grades 3 to 9.
- One period from ICT will be utilized for Artificial Intelligence (AI) classes for Grades 3 to 8.
(Note: In Grade 9, AI has already been integrated as part of the CBSE framework.)
- Kindly note that the revised timetables have been uploaded on the portal for your reference.

This circular is for your kind information and support as we continue to strengthen our learners' readiness for the future.

Thank you for your constant support and cooperation.

Warm regards,

Meenal Bakshi
School Principal

Our Motto

Education with a difference

Our Vision

DPS Monarch International School will deliver learning excellence that is child-centric, value-based, and technology-driven.

Our Mission

DPS Monarch International School will ensure that students add value to their community and make the world a better place to live.
